

GLOBAL COMBAT SUPPORT SYSTEM - ARMY

U.S. ARMY

PEO ENTERPRISE

MISSION

To improve and sustain the Army's tactical enterprise resource planning logistics and financial solution to deliver approved capabilities and vital services to the Soldier.

FAST FACTS

GCSS-Army integrates various business areas like supply, maintenance, property and tactical finance into a single system.

GCSS-Army is used by personnel across the Active, Reserve and National Guard components.

GCSS-Army is used by a wide range of users, including tactical logisticians, financial managers, and other personnel involved in logistics and finance operations.

WHAT IS GCSS-ARMY?

- GCSS-Army is the U.S. Army's web-based logistics and financial management system.
- Designed to modernize and integrate the Army's logistics and finance operations.
- Provides a single, integrated system for managing supply, maintenance, property and tactical finance.

WHAT DOES GCSS-ARMY DO?

- **Supply Management:** Enables users to manage and track the flow of supplies and equipment.
- **Maintenance Management:** Allows users to track and manage maintenance activities on equipment.
- **Property Accountability:** Provides a centralized system for tracking and managing property assets.
- **Tactical Finance:** Enables users to manage financial transactions and track expenditures.
- **Data Uniformity:** Integrates data from various sources into a single, unified view.

TOP GOALS & PRIORITIES

- **Improved efficiency:** GCSS-Army streamlines various logistics and finance processes, leading to improved efficiency.
- **Enhanced data visibility:** It provides a centralized view of data, allowing users to quickly access information and make informed decisions.
- **Improved tracking and planning:** It enables users to track and manage equipment and resources more effectively.
- **Better warfighter support:** By improving logistics and finance, GCSS-Army helps ensure that warfighters have the resources they need to perform their missions.
