EBS-C
ENTERPRISE BUSINESS SYSTEMS CONVERGENCE

Enterprise Business Systems – Convergence (EBS-C)

ARMY BUSINESS MODERNIZATION AND TRANSFORMATION

AS COMMERCIAL AS POSSIBLE. AS MILITARY AS NECESSARY.

WHAT IS EBS-C?

EBS-C will provide sweeping improvements to Army business processes across the enterprise. Specifically, it will:

- Re-engineer business processes against commercial best practices to reduce customization and related costs
- Streamline the logistics supply chain across numerous classes of supply
- Serve as the Army's authoritative source for financials and auditability
- Provide a solution that can adapt to changing conditions at the speed of conflict.

WHAT DOES EBS-C DO?

The EBS-C project office is charged with the creation of the acquisition strategy, as well as development and deployment of the Army's modernized/converged ERP system.

TOP GOALS & PRIORITIES

- Streamline, standardize and unify business operations while improving auditability.
- To improve user experience and increase efficiency, the Army is modernizing business operations to consolidate data into one easy-to-use platform.

MISSION

To provide a **modernized warfighting capability** that enables integrated and auditable sustainment operations from the strategic support area to the tactical edge of the battlefield, enabling decision-making by Soldiers, the civilian workforce and leaders.

FAST FACTS

The EBS-C project office is charged with the creation of the acquisition strategy, as well as development and deployment of the Army's modernized/converged ERP system.

5 Army ERPs become 1 System: EBS-Convergence will merge multiple ERPs into one system.

The merged system will host more than 200K unique users across multiple commands.

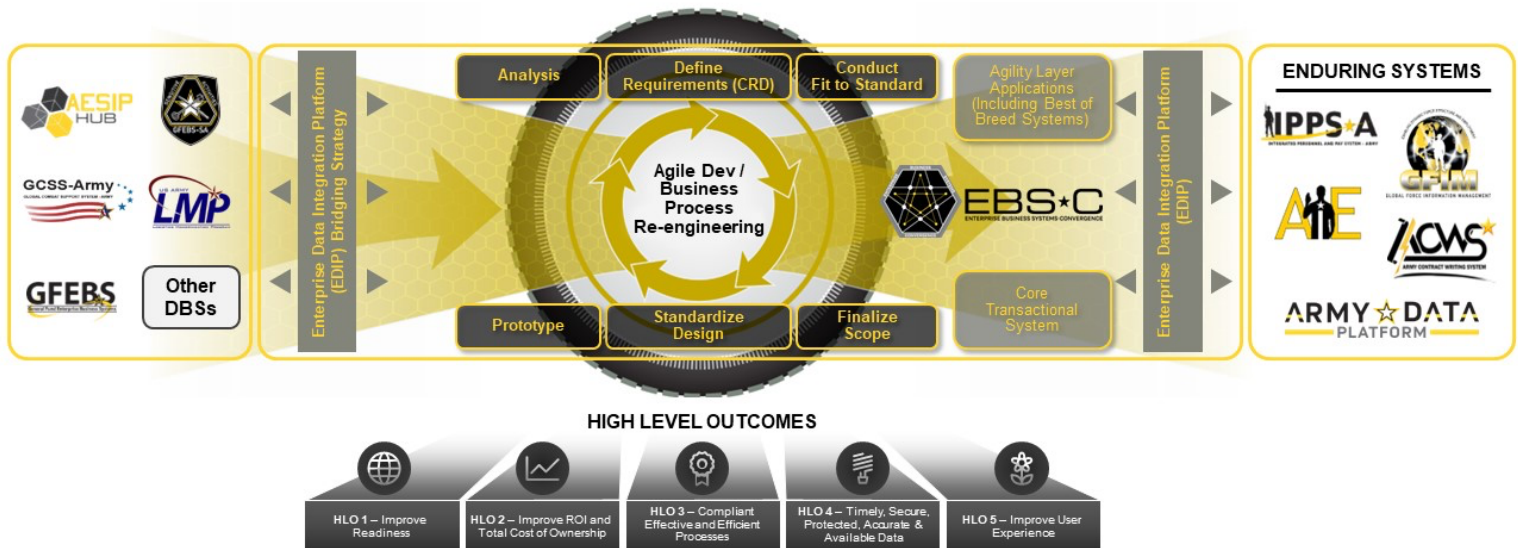

Combining the ERP systems will result in users accessing various modules 237M times annually.

AS COMMERCIAL AS POSSIBLE. AS MILITARY AS NECESSARY.

CONVERGED SYSTEM ROADMAP

The converged enterprise business system solution will combine the Army's enterprise resource planning (ERP) programs and improve system agility, capacity, speed and efficiency by seamlessly integrating 24 major Army capabilities across the finance and logistics enterprise. As the Army modernizes, EBS-C will provide a single authoritative system of record to provide true data reliability, transparency, auditability, tactical and strategic readiness, while reducing ownership costs.

COL Melvin Mitchell, Project Manager, EBS-C
